Professional Center-Post Lever-Less Tire Changer

Safety Features

- << Patented Automatic Rotating Multi-Functional Tire Bead Breaker: Precisely mounts and dismounts tires without scratching the rims, delivering all-around tire-changing capabilities.
- << Equipped with a safe and fast burst-feed mechanism.
- << The spindle can be raised and lowered and moved forward and backward, making tire installation easier.
- << Multi-functional one-stop operation structure: A one-stop layout for tire mounting and dismounting, equipped with a fully intelligent tire inflator. Featuring an intuitive two-handle design that can also be operated with one hand, it requires no prior experience, reduces labor costs, and boosts efficiency.
- << Intelligent lubrication management enables the system to automatically spray lubricants, precisely controlling oil volume and spray frequency to minimize downtime.
- << Real-time monitoring of work processes: Clearly observe the operation process through cameras.
- << High-precision positioning: Precise laser positioning minimizes visual errors during operation, enhancing accuracy.
- << Precision Servo Motor: The servo motor offers high-precision control over position. This allows for adjustable speed from 0-15rpm, enhancing overall efficiency and performance.
- << The automatic tire lifting device that can lift up to 75KG and assist in manually flipping the tire.
- << Comes with an air gun for easy cleaning and maintenance after each use.
